Government Gazette,

FOR THE COLONIES OF

VANCOUVER ISLAND AND BRITISH COLUMBIA.

PUBLISHED BY AUTHORITY.

No. 5.] VICTORIA, VANCOUVER ISLAND, SATURDAY, OCTOBER 8, 1859. [PRICE 6D.

Public Notices.

COLONIAL SECRETARY'S OFFICE,
Victoria, Vancouver Island, Sept. 26, 1859.

The entrance to the Fraser River having been re-buoyed, the accompanying "Notice to Mariners" which has been furnished to the Government by Captain Richards, of Her Majesty's Surveying Ship "Plumper," is herewith published for general information.

By Command,
WILLIAM A. G. YOUNG,
Acting Colonial Secretary.

NOTICE TO MARINERS.

THE Entrance to the Fraser River has been re-buoyed. All the buoys are placed on the Northern or Port side of the Channel in entering, with the exception of one on the South Sand Head.

The following table points out the position, and gives the description of each buoy:—

1	ON SOUTH SAND HEAD,	A spar buoy moored in 11 feet at low water. The spar painted white and black in horizontal bands, surmounted by a ball of the same colors also, in horizontal bands.
2	ON NORTH SAND HEAD.	A spar buoy moored in 11 feet. Spar black and white, in vertical lines, surmounted by a ball painted in the same manner.
3	ON NORTH SIDE OF THE CHANNEL,	A spar buoy moored in 9 feet. Spar black and white horizontally. Ball red.
4		A spar buoy moored in 12 feet. Spar, white and black bands horizontally, surmounted by a white diamond, and marked 1.
5		A spar buoy moored in 12 feet. Spar, white surmounted by a black diamond, marked 2.
6		A spar buoy moored in 11 feet. Spar, white surmounted by a red diamond, marked 3.
7		A spar buoy moored in 11 feet. Spar, white, surmounted by a crescent red and black, marked 4.
8		A spar buoy moored in 12 feet. Spar, white and black vertically, crescent red, marked 5.

On entering the River, the Sand Head buoys should not be approached within half a mile, until the passage between them is brought to bear N ½ E, when a vessel may steer in, mid channel, or pass the North Sand Head buoy and the first one inside it, from a cable to a cable and a half's length.

The remaining five buoys on the North side of the channel may be passed from half a cable to a cable's length, keeping them on the port hand in entering. After passing the inner buoy, a straight course may be steered for Garry Point.

It must be remembered that the ebb tide sets to the southward, over the Roberts bank, and the flood to the northward, over the Sturgeon bank.

By attention to these directions, a vessel drawing from 15 to 16 feet water, may enter the Fraser with safety, at half-tide.

The buoys assume a leaning position, varying from an angle of 35° to 80°, according to the state of the tide and wind, and can be plainly seen from a vessel's deck at a distance of three miles in clear weather.

Vessels bound for the River and coming through the 'Plumper Pass,' should steer N. N. W. as soon as they enter the strait of Georgia. This course leads direct for the Sand Heads eleven miles distant, some slight allowance being of course made for the tide, which runs from 1 to 2 knots in the strait, and more as the entrance of the River is approached.

Vessels from the Southward, passing Robert's Point, must avoid the Robert's bank which is very steep to: by not bringing the low part of this point to the Southward of East, the bank will be cleared.

GEO. HENRY RICHARDS
Captain H. M. Surveying Ship "Plumper.
